RE: *U.S. Patent Application No. 10/730,768 entitled "PLANTS AND SEEDS OF CORN VARIETY LH360" – Donald G. Eggerling*  
*Our reference: HFSC:015US*  
*Client reference: 34-52 (51646)*

Sir:

Enclosed for filing in the above-referenced patent application is an Information Disclosure Statement, Form PTO-1449, and references A1-A26 and C1-C29.

No fees are believed to be due in connection with the filing of this Information Disclosure Statement, however, should any fees under 37 C.F.R. §§ 1.16 to 1.21 be deemed necessary for any reason relating to the enclosed materials, the Commissioner is authorized to deduct the appropriate fees from Fulbright & Jaworski Deposit Account No.: 50-1212/HFSC:015US.

Please date stamp and return the enclosed postcard evidencing receipt of these materials.

Respectfully submitted,

  
Robert E. Hanson

**INFORMATION DISCLOSURE STATEMENT**

**MS AMENDMENT**

Commissioner for Patents

P.O. Box 1450

Alexandria, Virginia 22313-1450

Sir:

In compliance with the duty of disclosure under 37 C.F.R. § 1.56, it is respectfully requested that this Information Disclosure Statement be entered and the documents listed on attached Form PTO-1449 be considered by the Examiner and made of record. Copies of the listed documents required by 37 C.F.R. § 1.98(a)(2) are enclosed for the convenience of the Examiner.

In accordance with 37 C.F.R §§ 1.97(g), (h), this Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed to be

an admission that the information cited is, or is considered to be, material to patentability as defined in 37 C.F.R. § 1.56(b).

LH360 was developed from the single cross LH242 x LH228 by selfing and using the pedigree system of plant breeding. Yield, stalk quality, root quality, disease tolerance, late plant greenness, late plant intactness, ear retention, pollen shedding ability, silking ability and corn borer tolerance were the criteria used to determine the rows from which ears were selected.

LH242 and LH228, the progenitors of LH360, are both proprietary field corn inbred lines of Holden's Foundation Seeds, LLC. LH242 was awarded PVPA certificate #9700076 on May 29, 1998. LH242 is also protected by U.S. Patent No. 5,750,850, which issued on May 12, 1998. LH228 was awarded PVPA certificate #9700080 on May 29, 1998. LH228 is also protected by U.S. Patent No. 5,767,341, which issued on June 16, 1998.

The present Information Disclosure Statement is being filed prior to the receipt of a first Official Action reflecting an examination on the merits, and hence is believed to be timely filed in accordance with 37 C.F.R § 1.97(b). No fees are believed to be due in connection with the filing of this Information Disclosure Statement, however, should any fees under 37 C.F.R. §§ 1.16 to 1.21 be deemed necessary for any reason relating to these materials, the Commissioner is authorized to deduct the appropriate fees from Fulbright & Jaworski Deposit Account No.: 50-1212/HFSC:015US.

Applicant respectfully requests that the listed documents be made of record in the present case.

Respectfully submitted,

Robert E. Hanson
